Also...

The link in the update in the bullets...

EPA completed sampling of all 34 Texas Superfund sites potentially impacted by the storm. September 15, 2017. EPA completed 14 of 34 site summaries with sampling evidence and has released fourteen post-hurricane Superfund site summaries based on preliminary data on the www.epa.gov/hurricane-harvey website.

Which site did you want this to go to... ?

When you go to the very bottom of the Harvey page,

View the EPA Story Map about Hurricane Harvey Response activities here.

When you click on the here it just loops you to the top of the page... it does not go to the storyboard...

The link at the top of the page does work...

Thanks... hope you get some rest this weekend...

With Regards, Steve
